## 160n60 production inverter

What are the characteristics of a UFD series inverter?

This is 600V, 160A, IGBT. ) provides low conduction and switching losses. The UFD series is designed for applications such as motor control and general inverters where high speed switching is a required feature. 1. High speed switching 2. Low Saturation Voltage :  $V_{CE(sat)} = 2.1\text{ V}$  @  $I_C = 80\text{ A}$  3. High input impedance
