## 70A cylindrical solar container lithium battery

How safe is the lithium-ion power brick 12v-70ah battery?

The Lithium-Ion PowerBrick battery 12V-70Ah offers high level of safety through the use of cylindrical cells in Lithium Ferro Phosphate technology (LiFePO<sub>4</sub> or LFP). PowerBrick 12V-70Ah integrates an innovative Battery Management System (BMS) in its casing to ensure a very high level of safety in use.

What is the difference between 12V 70ah lithium ion and 12V 150ah battery?

[Excellent Performance] Constant power during discharge, very low self discharge.

Maintenance free and no memory effect. 12V 70Ah lithium ion battery is close to 12V 150Ah lead acid battery and delivers twice power of 12V AGM battery. [Usage Temperature] The solar rechargeable batteries can be used in -20 to 60 °C.

Are powerbrick batteries 12v-70ah compatible with AGM lead batteries?

The electrical parameters of the PowerBrick lithium battery 12V-70Ah are compatible in all respects with those of an AGM lead battery of 12V. In the vast majority of cases, the charging system can be kept the same and no additional accessories are required to perform the replacement.

How does powerbrick 12v-70ah work?

PowerBrick 12V-70Ah integrates an innovative Battery Management System (BMS) in its casing to ensure a very high level of safety in use. The BMS constantly monitors and balances the battery cells to protect the battery and increase its life.
