
Australia Mobile Power Station Generator Set

What is a portable power station?

Portable power stations, also known as portable solar generators or power banks, are compact and lightweight devices designed to store electrical energy and provide power when you're off the grid or during power outages.

What is a portable solar generator?

By combining our lithium portable power stations with off-grid solar systems, folding solar blankets, these kits give you everything you need to generate, store and use clean power, wherever your Australian adventure takes you. Unlike a fuel-powered inverter generator, a portable solar generator runs silently and produces no fumes.

Where are Airman portable power generators made?

Designed,engineered and manufactured in Japan,the Airman range of portable power generators are renowned for their precision engineering,reliability and fuel efficiency. Built tough and easy to use and maintain,the superior engineering makes the products well-suited to Australia's climatic conditions.

Are portable power stations reliable?

They are all IP Rated water,dust-resistant units,and are built to last for years with little hassle. In an increasingly mobile world,the need for portable and reliable power sources has never been greater. Portable power stations have emerged as a versatile solution for outdoor enthusiasts,campers,emergency preparedness,and even everyday use.
