
Australian Folding Container Network Manufacturer

What is Australian folding container (AFC)?

The Australian Folding Container (AFC) has been well received in the Automotive and general industries due to its versatility and user-friendly features. It is used in the light industrial manufacturing sector for storing and transporting an array of components such as plastic mouldings, electrical and mechanical components.

Where are GDS containers made?

The GDS manufacturing team work closely with our engineering team to bring your initial concept to reality from our manufacturing facility in South Nowra, NSW. Once your containers are built, we will organise a final inspection and then deliver to the location of your choice across Australia.

Are folding pallet bins the strongest in Australia?

We believe our folding pallet bins are the strongest in Australia. We own the equipment dies and intellectual property, which enables us to manufacture at the most competitive rates for industry, with emphasis on reusable supply chain packaging - reuse, return, refill.
