## Base station battery cabinet model and weight

What is a lithium ion battery storage cabinet?

Our Lithium Ion Battery Storage Cabinet LBSC-A10 is designed for secure storage of lithium-ion batteries in labs, workshops, and small industrial units, offering fireproof protection in compact spaces. Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments.

What is a lbsc-a10 battery storage cabinet?

Labtron is a leading supplier of the Lithium Ion Battery Storage Cabinet. The LBSC-A10 features an 18 L sump, five shelves supporting 75 kg each, and DN75 air ducts, ideal for secure battery storage.

What are labtron lithium ion battery storage cabinets?

Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments. These cabinets feature self-closing, oil-damped doors and triple hinges for maximum structural endurance. They are constructed with a powder-coated steel body and integrated leak-proof sump for safe containment.

How much weight can a dn75 cabinet hold?

It includes five durable shelves, each designed to support up to 75 kg of weight. These cabinets support DN75 extraction air ducts to remove hazardous vapors during battery charging cycles. They feature single-wing doors with oil-damped closers for enhanced fire protection in emergencies.

Ensure continuous communication with our "lithium battery cabinets, built for reliable power at base stations.

Discover the 48V 100Ah LiFePO4 battery pack for telecom base stations: safe, long-lasting, and eco-friendly. Optimize reliability with ...
