# Battery solar container energy storage system in Los Angeles

Where are solar batteries stored?

A bank of batteries storing solar energy at the Los Angeles Department of Water and Power's giant solar-plus-battery storage plant, the Eland Solar and Storage Center, in the Mojave Desert. This is read by an automated voice. Please report any issues or inconsistencies here.

What is eland solar-plus-storage center?

??? Project will Provide Enough Clean Energy to Power More than 266,000 Homes Each Year, Propel L.A. Forward in Transition to 100% Clean Energy by 2035 MOJAVE, CA -- Mayor Karen Bass today announced the completion of the Eland Solar-plus-Storage Center project, one of the largest solar and battery energy storage projects in the entire country.

Does California have a battery storage problem?

Battery storage in California has grown more than 3,000% since 2020. For decades, rolling blackouts and urgent calls for energy conservation were part of life in California -- a reluctant summer ritual almost as reliable as the heat waves that drove them.

Is Los Angeles building a greener Los Angeles?

"We are building a greener Los Angeles. The Eland Solar-plus-Storage Center project alone will generate enough power to serve more than 266,000 homes in Los Angeles and push the city's clean energy share above 60 percent, a major milestone in L.A.'s transition to being powered by 100% clean energy by 2035," said Mayor Karen Bass.
