We supply a massive range of leisure batteries from many different manufacturers for almost all leisures that have ever been built. Below you will find our complete range of 75Ah leisure batteries. We have tested each 75Ah and we have highlighted our star performer from the result of our tests.

Are Ope batteries good for outdoor maintenance?

Here's how to power up for your outdoor maintenance needs. Most OPE batteries are rechargeable, and all offer exceptional ease of use and low maintenance. Save time and effort with no cords to worry about and no need for fuel mixing, carburetor cleaning or winterizing at season's end. Here are the main battery types you can choose between.

Are lithium ion batteries a good choice?

TIP: Compared to other types, lithium-ion batteries have a longer run time between charges, making them a good choice for larger yards and gardens. Cycle life is the overall life of the battery. It represents the number of times a battery can be recharged before its performance degrades. TIP: Proper care helps optimize battery life.

Which battery is best for my Ope?

Explore your options to find the most ergonomic match for your OPE. Also known as lead acid batteries, these 6V or 12V batteries are used in applications where recharging isn't feasible.

BEST FOR: Riding lawn mowers, lawn tractors, lawn irrigation and electric fence systems
