Germany, Denmark, Finland, No... Fred. Olsen Renewables Brazil, South Africa, Norway,... Germany, France, Italy, Norwa...

Where is the best place to install solar panels in Bergen?

The highest peak in the area is Mount Floyen (429 m). Areas to the south of Bergen, such as Rong, which have more open terrain and less hills would be most suited for large-scale solar PV. Additionally, areas along the coast with good access to sunlight could also be suitable for solar PV installations.

Why is Bergen a key node in Norway's solar supply chain?

This synergy between production and innovation establishes Bergen as a vital node in Norway's solar panel supply chain ecosystem. Otovo Norway is a standout in the Norwegian solar market, known for its comprehensive range of solar panels and solar inverter solutions.

How many solar PV locations are there in Norway?

So far, we have conducted calculations to evaluate the solar photovoltaic (PV) potential in 58 locations across Norway. This analysis provides insights into each city/location's potential for harnessing solar energy through PV installations.
