
Berlin solar Glass

Who is GMB glasmanufaktur Brandenburg?

Top-level solar glass: that's our ambition, and the key to success. GMB Glasmanufaktur Brandenburg GmbH is a production site for the manufacture of solar & specialty glass which enjoys Europe-wide recognition. Since October 2022 GMB Glasmanufaktur Brandenburg GmbH is part of Borosil Renewablews Limited, which holds 86% of the shares.

What is Photovoltaic Glass?

Photovoltaic glass represents the natural evolution of solar energy: a smart, aesthetic, and efficient way to generate electricity from the very structures that surround you. You no longer have to choose between design and sustainability--with this technology, you can have both.

How does Photovoltaic Glass work?

Photovoltaic glass operates on the same basic principle as any solar system: it converts sunlight into electricity. It uses solar cells made of materials such as amorphous silicon, crystalline silicon, or advanced thin-film technologies. These cells are encapsulated between layers of glass, making the product durable, safe, and functional.

What is solar glass used for?

Thanks to its versatility, solar glass can be used in a wide variety of construction settings--from residential homes to offices, factories, shopping centers, and more. Some of the most common applications include: These applications are ideal for maximizing solar capture and turning passive structures into active energy generators.
