Which solar panel is best?

Maxeon 6: Best efficiency Maxeon's 440-watt solar panel is our pick for best overall. It's the most efficient panel at 22.8% and comes with the longest warranty (40-year performance and product warranties--15 years longer than the industry standard). Maxeon is the highest-rated solar panel on the EnergySage Marketplace.

Why should you choose a high-cost solar panel?

As highlighted in our guide to choosing a quality and efficient solar panel, when selecting panels, higher-cost panels from the leading manufacturers generally offer better quality, higher efficiency and increased reliability. Solar panels from the manufacturers listed below have proven to outperform and outlast most cheaper panels.

How much do solar panels cost?

In general, before tax credits and incentives, most homeowners can expect to pay between \$15,000 and \$25,000 for a standard 6-kilowatt solar panel system, according to Alan Duncan, founder of Solar Panels Network USA, a solar panel installation company based in Denver.

Which solar panels produce the most efficiency?

"Monocrystalline solar panels will produce the most efficiency, while polycrystalline solar panels are the most environmentally friendly," said Andrew Meyer, CEO of Arbor, a digital energy advisor. "If you're on a budget, you could also consider thin-film, but keep in mind they won't last as long as the other two types."
