
Boston EK successful energy storage project

What is Europe's largest battery storage project?

It was billed as Europe's largest battery storage project when it became operational at the end of 2014 and was revolutionary thanks to its technology providing a range of benefits to the wider electricity system, including absorbing energy then releasing it to meet demand.

6. Fluence Advancion Energy Storage Systems

Is ISO New England planning a 300MW Bess in Boston?

System operator ISO New England has given the go-ahead for a 300MW/1,200MWh indoor BESS located in Boston, Massachusetts under development by developer and IPP Flatiron Energy. ISO New England approved a proposed plan application associated with the project in the form of a letter published on the system operator's website on 6 January, 2025.

Why should we invest in energy storage technology?

Advancements in Energy Technology: This project represents a significant investment in cutting-edge energy storage technology. It could lead to advancements and cost reductions in battery technology, making energy storage more accessible and efficient for other regions and projects.

How much energy storage does Massachusetts have?

The act requires all electric distribution companies (EDCs) to report annually on energy storage deployment within their territories no later than February 15 each year. It was reported last year that Massachusetts had a cumulative storage capacity of 569MWh, with an additional 8,806 MWh in the development pipeline.

The Department of Energy (DOE) Loan Programs Office (LPO) is working to support deployment of energy storage solutions in the United States to facilitate the transition to a ...

Enel has secured a PPA with a Boston Properties for part of a solar-plus-storage project in the ERCOT, Texas market, which has a ...

Energy-Storage.news proudly presents our sponsored webinar with Trina Storage, on the relevance of customisation for battery storage project success in Latin America. Join us ...

About Our Project Moraga Energy Storage is a proposed 180 MW battery energy storage facility located at 358 Coldbrook Road in Oakham, MA, ...

ISO New England has given the thumbs up to a project proposed by Flatiron Energy and envisaging the installation of a 300-MW/1,200-MWh battery energy storage ...

Flatiron Energy's groundbreaking 300-MW battery storage project in Boston aims to enhance reliability and champion environmental justice by 2028. Powering a greener future ...

Due to the rising demand for energy storage, propelled further by the need for renewable

energy supply at peak times, energy storage facilities and producers have grown ...

Due to the rising demand for energy storage, propelled further by the need for renewable energy supply at peak times, energy storage ...

A battery storage installation at Boston Medical Center demonstrates how hospitals can integrate energy storage into an efficiency or sustainability program to better manage ...

The Boston Medical Center, New England's busiest trauma and emergency services center, installed a 572 kW, 1,271 kWh battery ...

This 43MW Battery Storage Project is a game-changer for grid stability, energy independence, and investor opportunity. Discover how it's shaping the Future of Power.

About EK Solar Energy - We are pioneers in solar power and energy storage technologies. Our mission is to provide reliable, eco-friendly energy ...

The Department of Energy (DOE) Loan Programs Office (LPO) is working to support deployment of energy storage solutions in the ...

We offer energy storage solutions, including battery modules, portable power supplies, and systems for residential, commercial, industrial, and utility-scale applications. Our products ...
