# Buenos Aires Nonferrous solar Energy Storage Project

Can battery energy storage modernize the grid in Argentina?

The... Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico) confirming the submission of 27 project proposals from 15 companies under its AlmaGBA program.

How many MW of battery energy storage will be deployed in Buenos Aires?

The initiative aims to deploy 500MW of battery energy storage systems (BESS) in the Greater Buenos Aires Area (GBA), but the submitted capacity has far exceeded expectations--reaching a combined 1,347MW

Why is Argentina a good stance on energy storage?

In Argentina, the stance provides a good lesson to the European stakeholders, especially in the commercial and industrial segments of energy storage. Emerging markets can present both local and foreign players by developing tenders that are investment appropriate and clear technically and financially secured.

How much will Buenos Aires invest in storage capacity?

The Argentinean authorities plan to install the new storage capacity in critical nodes of the metropolitan area of Buenos Aires, with an estimated investment of \$500 million and an execution period of between 12 and 18 months. From pv magazine Latam

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in ...

Argentina has received more than 1.3GW of energy storage applications for its first battery energy storage system (BESS) tender.

The Argentinean authorities plan to install the new storage capacity in critical nodes of the metropolitan area of Buenos Aires, with an estimated investment of \$500 million ...

Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora ...

Argentina's Wholesale Electricity Market Administrator (CAMMESA) has published the contract template for the "AlmaGBA Storage" tender, which aims to add up to 500 MW of ...

Discover how Chile and Argentina are increasing their renewable energy sources, including solar-battery storage hybrid plants, 2.5GW of renewable energy projects, and 215MW of small-scale ...

Argentina's battery energy storage systems tender receives 1.3 GW in bids--more than double its target--highlighting growing demand for grid resilience solutions.

---

The project, involving distributors Edenor and Edesur, requires a \$10,000 per MW bank guarantee and aims to strengthen AMBA's grid. The robust bidding response ...

The Argentinian government opened the bids this week for its AlmaGBA tender process. The international tender, first announced in February, aimed to secure 500 MW of ...

Concurrently, Argentina's push toward its renewable energy targets--mandating 20% of electricity from renewables by 2025 under Law 27,191--has increased the influx of ...

La Secretar&#237;a de Energ&#237;a plantea instalarla en nodos cr&#237;ticos del &#225;rea metropolitana de Buenos Aires, con una inversi&#243;n estimada de ...

This week, the Argentinian government opened bids for the AlmaGBA tender, initiated in February 2025 to procure 500 MW of battery energy storage system (BESS) ...

Argentina launches a 500 MW battery storage auction to boost AMBA's energy reliability, supporting a sustainable shift to renewable power and modernizing the energy sector.

The Energy Secretariat of Argentina's Ministry of Economy has launched a global tender for 500 MW of battery energy storage ...
