What is a good we inverter?

GoodWe - GoodWe stands for user-friendly, flexible hybrid inverters that are perfect for small and medium-sized PV systems. These suppliers are known for their high product quality and innovative technology and offer solutions for a wide range of requirements.

What is a hybrid inverter?

Hybrid inverters combine several functions in one device: they convert direct current (DC) from PV modules into alternating current (AC) for domestic use, control the charging and discharging of batteries and optimize the energy flow in the system. A particular advantage of the technology is the so-called "peak shaving" function.

Which solar inverter is best?

SMA Solar Technology - As the German market leader, SMA offers innovative hybrid inverters with high efficiency and comprehensive monitoring functions, ideal for demanding PV systems. Fronius - Fronius impresses with reliable and durable inverters that are easy to install and integrate into energy storage systems.
