# Cost of a 10kW Solar Containerized Container for Australian Mines

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects--all while reducing carbon footprint and cutting energy costs.

How much does a 10kW Solar System cost in Australia?

According to Solar Choice's own data, the average 10kW solar system price in Australia as of July 2025 is about \$0.91 per watt- or about \$9,130 after the federal STC rebate is deducted. The below table shows the breakdown of the average costs by each major state capital in Australia, which we update every month:
