# Cost solar container government subsidies

What is a solar rebate or subsidy?

A rebate or subsidy will cover part or all of the upfront cost of buying solar or a battery. Rebate schemes operated by states, territories and local governments sometimes only apply to particular groups of people or types of housing, such as social housing, rental properties or apartments. Eligibility criteria may relate to:

Why are governments putting trillions into wind & solar subsidies?

Governments, especially in the West, are pouring trillions into subsidies for wind and solar despite their hidden costs, raising consumer costs and undermining economies.

How much will wind and solar subsidies cost US taxpayers in 2024?

In the United States, new Treasury Department figures show that subsidies for wind and solar dwarf all other energy-related provisions in the tax code, costing \$31.4 billion in 2024, and are expected to cost taxpayers \$421 billion more between 2025 and 2034 based on the subsidies in the Biden-Harris climate bill, the Inflation Reduction Act.
