# Cuba Communications Services Base Station Maintenance

Is a flaw affecting Cuba's cellular network?

REUTERS/Alexandre Meneghini/File Photo By Dave Sherwood HAVANA (Reuters) - Cuba's telecoms company ETECSA said on Wednesday that a flaw in its cellular network was affecting voice and cell data service in some areas, though the extent of the outage remained unclear.

Does Cuba have a 3G network?

Yes, the connection is slow and poor. Even state sources told Granma in August 2024 that 87.53% of Cubans access the 3G network due to geographical limitations, while only half the population can connect to 4G.

How does a blackout affect Internet health and censorship in Cuba?

According to researchers from Diktyon (an independent source monitoring internet health and censorship in Cuba), blackouts directly affect not only communications but also access to information and online services essential for daily life.

What happened to cellular and data coverage in Havana?

The Communist Party newspaper Giron, in Matanzas province east of Havana, reported issues with cellular and data coverage on Tuesday following a problem at a local power generation plant. It was unclear if that smaller outage was linked to the broader outages reported on Wednesday.
