
Double glass module size 6

What is a double glass module?

Double glass module contains two sheets of glass, whereby the back sheet is made of heat strengthened (semi-tempered) glass to substitute the traditional polymer backsheet. With

What is the maximum deformation of a double glass module?

The maximum deformation of long side is tested according to the mechanical load of +5400 Pa for DH1000h, and -5400 Pa for DH2000h. Test result is that double glass module has no problems such as bubbles and delamination after tested under the condition of distortion +DH2000h, and the power loss is 2%.

What is a bifacial dual-glass module?

Designed for versatility, the Hi-MO X6 Bifacial Dual-Glass modules cater to a wide range of PV application scenarios, such as distributed roofs, PV carports, and winter gardens. Their bifacial design allows for efficient power generation by effectively utilizing light reflected to the rear side, providing additional power generation gains.

What is a Hi-mo X6 bifacial dual-glass module?

The Hi-MO X6 Bifacial Dual-Glass modules are engineered to overcome these challenges, offering unparalleled reliability and performance in even the most demanding conditions. Innovations for a Sustainable Future

Bifacial with Double-Glass Module adopts 182*210mm half cells, bifacial module provide an additional 5%~25% output.

LONGi is delighted to unveil its groundbreaking Hi-MO X6 Bifacial Dual-Glass solar modules during the 19th China (Jinan) ...

The long double function prototypes are identical to the prototypes for their double counterparts, except that the longdouble data type replaces the double data type. The long ...

M10 solar modules Aquaman series Mono MBB N-type large size half cut double glass module Excellent technical advantages and system design scheme to achieve high ...

Why Choose Double Glass Solar Modules? Glass-glass solar modules (bifacial modules) increase energy production by approximately 2% to 5% compared to traditional glass-backsheet ...

The ZNSHINE SOLAR ZXM8-GPLDD132 705W is a TOPCON Bifacial Dual Glass high-performance photovoltaic module designed for utility-scale and large commercial solar ...

size 2465*1134*30mm Product name JA n-type bifacial double glass module JAM72D42 640 635 630 625 620 Cell Orientation 156cells (6*24) Weight

Excellent product appearance and performance Two-sided double-glazed modules, symmetrical structural design, low risk of hidden cracks.

The ZNSHINE SOLAR ZXM8-GPLDD132 705W is a TOPCON Bifacial Dual Glass high-performance photovoltaic module designed for utility-scale ...

Introduction Assembled with 11BB bifacial PERCIUM cells and gapless ribbon connection technology, these double glass modules have the capability of converting the ...

LONGi is delighted to unveil its groundbreaking Hi-MO X6 Bifacial Dual-Glass solar modules during the 19th China (Jinan) International Solar Energy Utilization Conference.
