What are industrial uninterruptible power supply systems (UPS systems)?

We cater to multiple sectors for industrial uninterruptible power supply systems (UPS Systems) through standard or customized solutions. From high amperage manufacturing processes to minuscule backup requirements, these systems can offer efficiency in every application.

Why do I need an external uninterruptable power supply (UPS)?

My main PC is a silent desktop which means (unlike a laptop) has no resilience to power outages. This is where an external uninterruptable power supply (UPS) comes in handy. A UPS is like a big battery that gets charged from main power, but when there is an outage the battery kicks in and provides power to connected devices.
