
Electric new solar container battery in Bergen Norway

Why should we invest in EV battery recycling in Norway?

Our BESS holds immense potential for contributing to Norway's burgeoning clean energy landscape. Upon installation at the EV battery recycling facility, Hydrovolt, it will play a pivotal role in optimizing energy utilization and unlocking new revenue streams.

Why did Corvus Energy move to Bergen?

In 2019, recognizing the growing market for batteries for maritime use, Corvus Energy decided to move its factory and headquarters to Bergen. This relocation aimed to better serve the Norwegian market and be closer to customers, as Norway was ready to transition from traditional diesel fuel to zero-emission solutions.

Why should you invest in a Bess project in Norway?

The delivery process unfolded seamlessly, thanks to meticulous planning and the cooperation of all involved parties. Norway's efficiency and commitment to environmental stewardship shone through, enhancing the overall experience. Our BESS holds immense potential for contributing to Norway's burgeoning clean energy landscape.
