How much energy can a storage battery store?

A typical storage battery from The Energy Saving Store can store up to 4kWh of energy; enough to power a kettle 37 times. Up to 16kWh of capacity is available, but speak to The Energy Saving Store about your options. Storage batteries qualify for upfront funding from the Energy Saving Trust as an eco-friendly means to power your home.

What is a battery energy storage system?

A Battery Energy Storage System (BESS) is a sophisticated setup that stores surplus electricity in rechargeable batteries, usually lithium-ion, and supplies it back to the grid or users when required. BESS mitigate issues such as peak loads, frequency stabilization, and excess renewable energy ([waste.energy.gov](http://waste.energy.gov)).
