# Energy storage and new energy in Gothenburg Sweden

Is the energy sector a good investment for Sweden?

"Developments in the energy sector present significant opportunities for Sweden," says Joel Grönqvist, investment advisor for automotive and mobility at Business Region Göteborg. "The transition from petrol and diesel to electricity has resulted in much of a car's value shifting to its battery."

How will the Gothenburg battery factory benefit the environment?

In a unique collaboration between the city and the battery factory, purified wastewater from Gothenburg residents will be used for cooling during production. The heated water will then be reused in the district heating network, benefiting both the environment and the city's residents.

Where is Gothenburg's first battery Gigafactory?

and Gothenburg's first battery gigafactory. NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for its highly anticipated battery factory in Torslanda, Gothenburg.

When does Battery Centre Gothenburg open?

Nearby at Lindholmen, Battery Centre Gothenburg will open on 24 January. There, both industrial personnel and students will be trained and educated in battery technology and production. The public-private initiative involves, among others, Volvo Cars and the Volvo Group, Sweden's two largest companies, who are both committed to electrification.
