## Eritrea Gigawatt Solar Company

What are the benefits of building a solar plant in Eritrea?

Building a solar plant in Eritrea contributes to the nation's energy independence and supports its commitment to renewable energy development. This initiative also aims to address the energy needs of Eritrea while promoting sustainability and reducing carbon emissions.

Who is GigaWatt Global Co&#246;peratief?

Gigawatt Global Co&#246;peratief U.A. is a multinational renewable energy company focused on the development and management of utility-scale solar fields in emerging markets.

Gigawatt Global has a rich pipeline of renewable energy projects, providing solar, wind and hydro electricity, mostly in Africa.

Where are S Sudan's solar installations located?

They are located in Narok and Kwale county. As they transition to renewables, S. Sudan's first solar installation will be our 10MW solar PV +storage project in the capital, Juba, in advanced stages of development. We are developing Zambia's first hybrid solar PV and Wind Farm in the center of the country adding 71 MW to their energy pool.

Where are solar PV plants located in Kenya?

We are developing two grid-scale solar PV plants in Kenya. They are located in Narok and Kwale county. As they transition to renewables, S. Sudan's first solar installation will be our 10MW solar PV +storage project in the capital, Juba, in advanced stages of development.
