
Estonian solar tile manufacturers

Where is Solarstone based?

Solarstone's factory in Viljandi is located on an area of 1,200 sqm, where anyone can pay a visit (with prior notice) and get acquainted with the product range. „With today's setup, we can produce 20,000 tile interlocking solar modules per year, resulting in approximately 715 design solar roofs and 25,000 Click-on kits.

Why did Solarstone start in Viljandi?

„All three Solarstone founders were either living in Viljandi or had a very close relation to this town, hence the decision was born to also kickstart the business in here and build lasting roofing systems that look pleasant to the naked eye," Silver Aednik, company's managing director and co-founder says.

How much money does Solarstone have?

It recently secured EUR10 million in funds to expand sales across Europe. Estonian startup Solarstone announced it has recently secured EUR10 million (\$10.1 million) in its second financing round. "With these funds, Solarstone intends to expand building integrated solar PV solutions across Europe and beyond," the company said in a statement released.

How much does a Solarstone tile weigh?

It has dimensions of 1,530 mm x 395 mm x 31 mm and weighs in at 7 kg. The Solarstone 90 W tile. The tile relies on eight cells measuring 156 mm x 156 mm and 3.2 mm prismatic glass. The second tile, called Solarstone 108 W, has a larger size of 1,824 mm x 389 mm x 22 mm and a weight of 8 kg.

The unique way to use solar panels as roofing material Solar panels as roofing material, often referred to as solar roof tiles or solar shingles, are an innovative solution combining both ...

Sunergia specializes in solar power solutions, offering a variety of high-quality solar energy products, including panels and batteries, from top manufacturers.

Its building-integrated photovoltaic (BIPV) product portfolio consists mainly of three products - two types of solar tiles with a nominal power of 90 W and 108 W, respectively, and ...

Solar panels on the roofs can be aesthetic to look at for the naked eye - three guys, the founders of Estonian CleanTech startup Solarstone, figured out how this can be done.

New photovoltaic tiles from Estonia Estonian startup Solarstone has developed two solar tiles with an efficiency of up to 19.5% ...

Solar panels on the roofs can be aesthetic to look at for the naked eye - three guys, the founders of Estonian CleanTech startup Solarstone, ...

SOLARSTONE toodab ehitisintegreeritud päikesekatuseid, mis ühendavad

energiatootmise, katusematerjali ja arhitektuurse terviklikkuse. Usume, et multifunktsionaalsed katused on uus ...

Estonian startup SolarStone developed an engineering solution to install solar panels directly into the roof, and in different types of tile roofs that are popular in Estonia. Top ...

Metsolar produces unlimited variety of tailored BIPV solar panels for Estonia and other regions of EU, that are efficient, cost competitive and have exclusive design possibilities. Our agile ...

New photovoltaic tiles from Estonia Estonian startup Solarstone has developed two solar tiles with an efficiency of up to 19.5% and an operating temperature coefficient of -0.41% ...

Solarstone building-integrated solar panels (BIPV) perform as regular roofing material while harnessing solar energy. Solarstone replaces traditional roof tiles, shake or ...

Company profile for solar panel and category_singular_software manufacturer Solarstone OÜ - showing the company's contact details and offerings.
