# Ex-factory price of 20-foot photovoltaic containers for ships

How much does a 20ft dry container cost?

A cargo worthy 20ft dry container can cost anywhere from \$1,300 to \$2,600. Wind & Watertight Containers will not have any holes or defects that would allow wind or water to enter the unit, although they may not be seaworthy until further maintenance or inspections have taken place.

How much does a cargo worthy container cost?

Cargo Worthy Containers are seaworthy shipping containers, meaning they are still strong and weather resistant enough to carry cargo on a container ship, but they may have wear and tear including dents, dings, or rust. A cargo worthy 20ft dry container can cost anywhere from \$1,300 to \$2,600.

How much does a full container load cost?

FCL: For international moves, a full container load charges about \$4000 which is approximately 27-30% more than LCL. LCL: Likewise, less than a container load costs about \$1600 for an overseas move which is less expensive than FCL. Do you plan any shipments?

How much does a 40ft high cube container cost?

If you're interested in a new 40ft high cube (HC) container, expect to pay roughly \$2,500 to \$6,000. However, these values are largely based on averages and estimates, as trends change and container shortages do occur, not to mention the volatile global economic climate we're now witnessing - so, these can affect prices as well.
