## Factory price axpert inverter in Melbourne

Where can I buy an inverter in Australia?

Share contact information, store details, and brand content with your customers.

Inverter.com.au is the online inverter store for Australia's best inverters. Suppliers of quality inverter, sine wave inverter, inverter charger, solar inverter and off grid solar systems, power inverter technology for over 20 years.

Where can I find a list of approved inverters?

Search the Clean Energy Council's list of approved inverters. This list contains over 1,800 inverter and Power Conversion Equipment (PCE) models that have been approved to meet relevant Australian and international standards, as well as other checks to make sure inverters are safe for Australian consumers.

Where are solar inverters made?

These days the vast majority of solar equipment is manufactured in China. Even European brands like SolarEdge, Fronius and SMA have major production facilities in China. If you are looking for something that is not manufactured in China you can look at the datasheet of the model of inverter you have been quoted to see where it was manufactured.

How much does a solar inverter cost?

Depending on the Brand, the best solar inverters can cost anywhere from \$800 to \$2,600.

Other inverter specifications - in order to keep this simple we have selected some of the most important aspects of an inverter to compare. A more holistic approach may lead to a slightly different ordering and outcome.
