# Free Consultation on Off-Network Type Foldable Containers in West Asia

Who makes foldable containers?

HCL is not the only company that produces foldable containers. Another example is Staxxon, an American manufacturer of accordion-like foldable containers. They are ISO approved and will be commercially available in 2023. They can be folded and unfolded by two people or with Material Handling Equipment (MHE).

What is a foldable container?

It is, therefore, suitable for use by shipping lines and terminals. Foldable containers save up to 75% space and costs (50-60%). One standard container takes up as much space as four foldable ones. In addition, they are more environmentally friendly. The transport of foldable containers generates 37% less carbon dioxide.

How can a government reduce the cost of a foldable container?

It would also be helpful for governments to invest in research and innovation of the equipment technology for handling foldable containers to reduce the fixed cost. Meanwhile, policies that can motivate container companies to supply more foldable containers to the market would also have a positive effect.

What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains. COLLAPSECON is the collapsible shipping container pioneering the future of global trade. Its practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.

Richard Danderline, Staxxon CFO commented "Increases in transportation costs for imported goods has been a key driver of global ...

Foldable containers - an alternative to traditional boxes The solution to the problem, foldable containers, appeared in 2008. Behind it is the Dutch company Holland Container Innovations ...
