# Helsinki New Energy Charging Station

Does Helsinki Airport have an electric car charging station?

"Charging an electric car at Helsinki Airport will become considerably faster. The charging station is Helen's largest to date, and the total capacity of its eight charging points is 600 kilowatts," says Kati Andersin, Head of E-Mobility at Helen. Image: Helen's charging station is located in front of the airport service station.

What's new at Helsinki Airport?

Finavia and the energy company Helen will launch a new charging station for electric cars in front of Helsinki Airport. This is the first high-power charging station at Helsinki Airport.

How many charging points does Helsinki Airport have?

The charging station is marked with green on the map. All in all, Helsinki Airport has nearly 400 charging points for electric cars. "Our parking halls P1 Premium and P2 have excellent facilities for electric cars, as they offer hundreds of charging points for electric cars.

Can electric cars be charged at Finavia airport?

"Our parking halls P1 Premium and P2 have excellent facilities for electric cars, as they offer hundreds of charging points for electric cars. The third floor of the P2 building is entirely reserved for electric cars," says Isom&#228;ki. Electric cars can be charged in all of Finavia's parking halls at Helsinki Airport.

Helsinki, known for its commitment to sustainability and innovation, offers a well-established network of charging stations that seamlessly integrate with the city's eco-friendly infrastructure.
