
High-pressure type folding container for construction sites

Riyadh

Why should you choose karmod products for portable container in Saudi Arabia?

For portable container in Saudi Arabia, prefer Karmod products, and do not regret from an economic or structural point of view. We have contributed to many projects with our modular products and completed many projects in Saudi Arabia. One of them is the Meshfa Health Center, which we established in the Al-Sharkiya region.

What projects have we completed in Saudi Arabia?

One of the projects we have completed in Saudi Arabia is the worker camp project in Tureyf. The structures are designed for the buildings where the workers of the phosphate mine project will be accommodated. The buildings have a total size of 5 thousand 380 square meters.

What are container buildings used for?

Container buildings are used for many different needs from homes to schools.

Structures, which are modular in terms of structure, are first designed in computer environment. After being designed, they are manufactured in computer-aided modern production facilities.

Where should a container be used?

One of the most preferred areas for containers is permanent and temporary living spaces.

Housing containers are widely preferred in mass housing projects established after wars, mass housing projects established after natural disasters such as earthquakes or floods, and worker camps in construction projects in remote areas.
