## High quality branded inverter in Canberra

Who is the best solar inverter manufacturer in Australia?

Fronius is undeniably one of the top solar inverter manufacturers in Australia, making a significant contribution to the country's transition towards renewable energy. Selectronic Australia, a home-grown pioneer in power solutions and one of Solar Panel Manufacturers in Australia, has been serving the Australian market since 1964.

How much does a solar inverter cost in Australia?

Solar power saves over 3.4 million Australian households \$1,600-\$2,000 annually on electricity bills at \$0.20-\$0.35/kWh, but the inverter, the heart of a 6.6kW system (\$5,000-\$10,000), ensures efficient energy conversion. Choosing a high-quality inverter maximizes output and reliability in Australia's diverse climates.

Who makes Fronius solar inverters?

Fronius has been manufacturing top-notch solar inverters for more than thirty years and is one of the leading inverter producers in the world solar market. Fronius inverters began supplying in Australia in 1995 and have been highly popular in Australia ever since.

Are AERL solar inverters Australian made?

AERL's inverter range includes models designed for various applications, such as residential solar systems, remote power systems, and larger, grid-connected solar power plants. Their inverters are Australian made, specifically designed to withstand the harsh and varied Australian conditions.
