The outdoor reclosers are the perfect solution for pole-mounted and overhead distribution networks and our leading outdoor circuit breakers are reliable, cost-effective and require limited maintenance. Our latest solutions for remote control and monitoring allow you to make the most of your new installation.

What does a circuit breaker do?

A circuit breaker is an automatic safety switch that stops the flow of electricity when it detects a problem, such as an overload or short circuit. This helps protect your wiring and appliances from damage while reducing the risk of electrical fires.

Who invented a circuit breaker?

The circuit breaker concept was first patented by Thomas Edison in 1879 as a device used to protect his electric lighting system. Over the years, circuit breaker technology has made many improvements and innovations. For instance, in the early 20th century, oil circuit breakers were common, using mineral oil to insulate and extinguish the arc.
