
How many 5G network base stations are there in the United Arab Emirates

How many 5G stations are there in the UAE?

5G is well-deployed in major urban areas and along main transport routes, but less so in more rural areas. The UAE is estimated to have approximately 7,000 5G base stations, representing seven stations per 10,000 residents. The two principal network operators (Etisalat by e& and Du) as well as the main VMNO Virgin Mobile offer 5G connectivity.

How many 5G networks are there in the Middle East?

This includes eight in the Middle East and 10 in Africa. The first full commercial 5G mobile service in the MEA region was introduced by Etisalat in the United Arab Emirates (UAE) in May 2019, followed closely by its domestic rival Du the following month.

When did 5G start in the UAE?

The first full commercial 5G mobile service in the MEA region was introduced by Etisalat in the United Arab Emirates (UAE) in May 2019, followed closely by its domestic rival Du the following month. Etisalat switched on the region's first pre-commercial 5G networks in select Abu Dhabi and Dubai locations in January 2018.

Does Dubai have 5G?

In May 2019, with 5G-capable handsets now available to UAE customers, the Etisalat network was opened for full mobile use. By February 2023, the 5G network served all main urban areas and many connecting highways, including Abu Dhabi, Dubai, Sharjah, Fujairah, Ras Al-Kaimah, and Umm Al-Quwain, with a population coverage of 97%.
