# How many hydrogen refueling stations are there in Seoul

How many hydrogen refuelling stations are there in South Korea?

In South Korea, 198 refuelling stations were in operation and in Japan it is possible to refuel vehicles at 161 locations. Outside of China, South Korea was the world leader in the expansion of hydrogen refuelling infrastructure for the third time in a row with 25 stations in operation.

How many hydrogen refuelling stations are there in 2024?

This is the result of an analysis by H2stations.org. 45 countries now have a hydrogen refuelling infrastructure in operation or under construction. However, by the end of 2024 there were only 1,160 hydrogen refuelling stations in operation worldwide. Of these, 748 were in Asia, with China leading the way with 384 stations.

How many refueling stations will South Korea have in 2022?

South Korea's roadmap calls for expanding the number of refueling stations from the current 34 to 310 by 2022 and to 1,200 by 2040 (Kang 2020a). South Korea plans to provide subsidies and reduce regulations to encourage the construction of new filling stations to facilitate this expansion.

Which countries have hydrogen refuelling stations?

The first hydrogen refuelling stations have been opened in the capitals of Bulgaria and Slovakia. New to the list of countries with operational hydrogen refuelling stations is New Zealand. The world's 1,160 hydrogen refuelling stations could soon be joined by more. There are concrete plans for at least 377 more refuelling sites outside China.
