
How many signal base station sites are there in Italy

Where can I find information about Europe's LTE broadcasting towers?

Welcome to LTEMAP.EU Our website has maps with some of Europe's LTE broadcasting towers. This provides you some information about towers: check where your signal comes from and how many carriers each site has. Towers either send a 4G or a 4G PLUS signal.

How many stations were built in the Italian Alps?

No less than 19 stations, including seven main stations, were located in the country. In the North the Alps had to be crossed, in the South (towards Greece) the Mediterranean Sea. At the time this was only possible with huge antennas at high altitudes. This is why Station D. was built in the Italian Alps.

How many satellite stations does NCIA have?

NCIA operates seven satellite ground stations and one satellite centre, enabling seamless and secure communication channels for command centres and deployed forces across the Alliance. In 2019, NATO authorised EUR 1 billion for SATCOM services for the next 15 years.
