# How much does solar container battery cost in the UK

How much does a solar system cost in the UK?

When factoring in solar panel costs in the UK, the average 4kW solar system with battery price, for a 3-bedroom house, could reach £13,000 to £15,500. On the other hand, pairing a 5kW solar system with a battery can cost around £16,500 - £18,500. As you can see, the prices increase the larger your solar system size is.

Is a Solar Storage Battery Worth It in the UK?

A solar storage battery is well worth having in the UK. If you add a battery to your solar panel system, you can use much more of the electricity your panels produce. This is because a battery stores any excess energy your solar panels produce when the sun shines, so you can use it to power your home after dark.

How much does a 10kW solar battery cost in the UK?

The average price of a 10kW solar battery in the UK is approximately £8,000. Are solar batteries worth the cost in 2025? For larger properties, battery storage generally makes sound economic sense. However, for smaller homes, there are several factors to consider when determining whether it is economically viable.
