# Huawei Manila Energy Storage Equipment Manufacturing Plant

How many GWh of battery energy storage in the Philippines?

With the latest deal, the Philippines has procured cumulative 6 GWh of battery energy storage systems (BESS) within days. China's Huawei has bagged its biggest BESS order to date and will supply the Meralco Terra Solar Project in the Philippines, which is considered the largest integrated solar and battery storage facility in the world.

What is Huawei's largest energy supply agreement?

The BESS supply agreement marks Huawei's largest to date. Construction started on the Meralco Terra Solar solar-plus-storage project in November 2024. The site is claimed to be the world's largest integrated power plant that combines the two technologies.

Will Huawei provide a 4.5gwh Bess for Meralco Terra solar project?

Huawei has secured a supply agreement to provide a 4.5GWh BESS for the Meralco Terra Solar project in the Philippines.

Will Huawei's Advanced Energy Solutions play a key role in Meralco Terra solar?

Next-generation energy solutions Huawei's advanced energy solutions, showcased in projects like Saudi Arabia's Red Sea solar microgrid, are set to play a key role in Meralco Terra Solar in the Philippines. These systems will enable Meralco Terra to efficiently store energy during low demand and stabilize grid supply during peak periods.

Philippines president Ferdinand Marcos Jr at the project's groundbreaking, 21 November.
