
Huawei's new energy storage project in West Asia

Why is Huawei reshaping the future of Energy Innovation?

By leveraging Huawei's cutting-edge digital power technologies and Keppel's expertise in energy management, we are not only meeting the growing demand for renewable energy to support Singapore's global leading position in green development - we are reshaping the future of energy innovation.

How will Huawei & Keppel work together?

Through this partnership, we will harness Huawei's digital power technologies and Keppel's deep expertise in energy infrastructure to enhance the reliability and seamless integration of renewables with state-of-the-art energy storage.

What is Huawei digital power?

Huawei Digital Power will provide its next-generation Smart PV solutions, integrating advanced power electronics, and energy storage capabilities to maximize energy yield, operational reliability, and lifecycle cost savings.

Who is Huawei digital power & peak energy?

[Shanghai, China, June 11, 2025] Huawei Digital Power and Peak Energy, a leading Singapore-based Independent Power Producer (IPP), officially signed a Memorandum of Understanding (MoU) at SNEC 2025, forming a powerful alliance to fast-track the rollout of renewable energy solutions across the Asia-Pacific C&I sector.

Huawei Digital Power has already secured over 3 GW of energy storage projects in Chile and more than 5 GW across Latin America. Its grid forming technology is already ...

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system ...

The Huawei Hybrid-Cooling ESS launch and the accompanying workshops at the summit reaffirm Huawei's leadership in ...

The world's first batch of grid-forming energy storage plants has passed grid-connection tests in China, a crucial step in integrating ...

Under the agreement, Huawei Digital Power will provide a complete smart PV & energy storage system (ESS) solution for the 1 GW ...

The Future Energy Summit APAC 2025 brings together industry leaders to discuss the latest trends in C&I Smart PV, energy storage, and ...

Now, the project's photovoltaic output has increased from the previous maximum of 1.5MW to 12MW. "Over 10 days of monitoring, Huawei's grid-forming energy storage ...

Huawei Digital Power is set to unveil its cutting-edge Hybrid-Cooling Energy Storage System (ESS) at the C& I Future Energy Summit Asia Pacific 2025 in Bangkok, Thailand.

Huawei West Asia Photovoltaic Energy Storage Project Singapore, 13 May 2025 - Huawei International Pte. Ltd. ("Huawei") and Keppel Ltd.'s Infrastructure Division ("Keppel"), have ...

This strategy will transform a large fleet of NEVs into a massive "portable energy storage" system, allowing for flexible and ...

The green and low-carbon transformation of the power sector is a multifaceted endeavor, encompassing various aspects such as power generation, transmission, ...

Through this partnership, we will harness Huawei's digital power technologies and Keppel's deep expertise in energy infrastructure to enhance the reliability and seamless ...

Philippines president Ferdinand Marcos Jr at the project's groundbreaking, 21 November.
Image: Presidential Communications ...

As a cornerstone of SaudiVision2030, the Red Sea Project now stands as the world's largest microgrid energy storage project, with a storage ...
