
Hungary independent energy storage power station

Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

Is Hungary stocking up on battery backup?

Hungary isn't alone in stocking up on battery backups as it charts its green energy path. In neighbouring Bulgaria, a massive 124MW/496MWh battery energy storage system went live in Lovech earlier this year.

How will a new solar power plant help Hungary's power grid?

The new facility supports a growing push to green Hungary's power grid, especially as solar capacity surges. With no moving parts and a rapid response time, batteries like this are designed to stabilize the grid by storing excess solar power and releasing it when demand peaks.

How MET Group contributes to the energy transition in Hungary?

On site at the Dunamenti Power Station in Székeszhely, MET already installed a 4 MW / 8 MWh demonstrator plant based on Tesla Megapack 2 batteries in 2022. With this latest BESS plant which went into operation today, MET Group and the Dunamenti Power Station are further strengthening their contribution to the energy transition in Hungary.

MET Group expands its role in Hungary's energy transition with a new BESS plant at Dunamenti Power Station.

/BUDAPEST, HUNGARY, June 19, 2025, 10:00 CET, MET Group/ Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated ...

Situated at the Dunamenti Power Station in Székeszhely, the new battery energy storage system builds on MET Group's earlier 4 MW / 8 MWh demonstrator plant ...

Situated at the Dunamenti Power Station in Székeszhely, the new battery energy storage system builds on MET Group's earlier 4 ...

The Hungarian government says its new HUF 100 billion (\$305.4 million) program will support 10 kW home battery systems to boost solar self-consumption and cut evening ...

He can't do anything about the truly nationalistic governments (i.e. China, Russia, even Hungary) because they control their media and boot him and his useful idiots out. ...

The government is launching a HUF 100 billion (\$303 million) residential energy storage program to help families with solar panels achieve long-term energy self-sufficiency.

Hungary announces HUF 100 billion (EUR 261 million) residential energy storage subsidy program, providing HUF 2.5 million per household to purchase 10kWh energy storage ...

The government is announcing a residential energy storage program with a budget of HUF 100 billion (EUR 261 million), the Minister heading the Prime Minister's Office said on ...

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with ...

Hungary switches on its largest battery energy storage system at Dunamenti gas power plant to support grid flexibility near Budapest.

/BUDAPEST, HUNGARY, June 19, 2025, 10:00 CET, MET Group/ Hungary's largest operating standalone battery energy storage ...

The government of Hungary has introduced a HUF-100-billion (USD 305m/EUR 260m) programme to support residential energy storage installations to ensure that families ...

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into ...
