
Hungary makes energy storage equipment

What is Hungary's Energy Strategy?

Hungary's energy strategy is based on two pillars, nuclear and renewable energy. The four blocks of Hungary's only nuclear power plant have a combined capacity of 2,000 megawatts (MW). Hungary is expanding the Paks power plant with two new blocks adding 1,200 MW each.

How met group contributes to the energy transition in Hungary?

On site at the Dunamenti Power Station in Székesfehérvár, MET already installed a 4 MW /8 MWh demonstrator plant based on Tesla Megapack 2 batteries in 2022. With this latest BESS plant which went into operation today, MET Group and the Dunamenti Power Station are further strengthening their contribution to the energy transition in Hungary.

How long will a Bess unit last in Budapest?

The current storage capacity of all BESS units on site would be sufficient to supply the entire decorative and public lighting needs of Budapest for 4 hours. The supplier of the equipment is Huawei Technologies, the project's main contractor is Forest-Vill Ltd.

Hungary is rapidly embracing energy storage systems (ESS) to modernize its power grid and support renewable energy adoption. This article explores how ESS solutions are reshaping ...

The government of Hungary has introduced a HUF-100-billion (USD 305m/EUR 260m) programme to support residential energy storage installations to ensure that families ...

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with ...

/BUDAPEST, HUNGARY, June 19, 2025, 10:00 CET, MET Group/ Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated ...

The government is launching a HUF 100 billion (\$303 million) residential energy storage program to help families with solar panels achieve long-term energy self-sufficiency.

/BUDAPEST, HUNGARY, June 19, 2025, 10:00 CET, MET Group/ Hungary's largest operating standalone battery energy storage ...

The Hungarian government says its new HUF 100 billion (\$305.4 million) program will support 10 kW home battery systems to boost solar self-consumption and cut evening ...

The government is announcing a residential energy storage program with a budget of HUF 100 billion (EUR 261 million), the Minister heading the Prime Minister's Office said on ...

Hungary has taken a significant step forward in its energy transition with the inauguration of its largest standalone battery energy storage system (BESS).

Hungary has unveiled a significant new initiative to boost residential energy storage, allocating HUF 100 billion to subsidize home battery systems. The program is designed to help ...

Hungary announces HUF 100 billion (EUR 261 million) residential energy storage subsidy program, providing HUF 2.5 million per household to purchase 10kWh energy storage ...

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into ...
