# Investors in the construction of 5G base stations in Botswana

Can 5G technology be used in Botswana?

Jerme HENIQUE, CEO of Orange Middle East and Africa, says: "The launch of 5G technology in Botswana will allow us to scale-up this technology and gain experience for other Orange countries across Africa. The benefits and potential impact of this are promising.

How big is the 5G base station market?

Macro cells represented USD 22.9 billion and 61.3% of the 2024 5G base station market share, providing umbrella coverage and mobility anchor services. Yet small cells are forecast to expand at a 29.4% CAGR, pushing their slice of the 5G base station market size toward USD 50 billion by 2030.

Will Orange Botswana implement 5g-based use cases?

Orange Botswana is looking forward to collaborating with government and enterprises to implement 5G-based use cases. Orange Botswana introduces new 5G fixed broadband services and mobile data bundles. The offers are available for residential customers, small and medium enterprises and include value added services.

Will Orange Botswana launch 5G in 2023?

Orange Botswana is the first Orange affiliate to launch 5G, with a coverage of 30% of the population, including greater Gaborone and Francistown. Other cities will follow in early 2023. It follows the launch of Botswana's first Orange Digital Centre this morning, which will help bridge the digital gap [...]
