
Kosovo genuine imported solar lights for home use

Does Kosovo have solar power?

Kosovo has the potential of capturing solar energy directly and converting it to electricity. The region of highest solar potential based on global horizontal irradiation is the southwestern part of Kosovo, centred around the city of Gjakova. Solar power is already used on the roofs of some buildings.

Is lignite a good source of electricity in Kosovo?

The lignite is of high quality for the generation of electricity and compares well with the lignite resources of neighbouring countries on a range of parameters. Kosovo's lignite varies in net calorific value from 6.28-9.21 MJ/kg, averaging 7.8 MJ/kg.

Who is Unisolar?

Based on previous personal experiences in energy systems and having it all the necessary European qualifications for photovoltaic systems, the two co-founders established company Unisolar L.L.C., with the aim of reaching the heights of a successful business in the field of renewable energy in Kosovo and wider.
