## Latvia battery pack

Will Latvenergo become Baltic leader in battery energy storage systems?

Energy company Latvenergo said February 18 it is investing heavily in battery systems with the stated intention of becoming the the Baltic market leader in battery energy storage systems (BESS).

Why are battery systems important for Latvenergo?

Battery systems play a crucial role in balancing the production volumesof Latvenergo and improving the flexibility of consumption. Chief Financial Officer of Latvenergo Guntars Balcuns: "This investment in battery systems is an important step in the development of our energy sector and long-term sustainability.

How will Latvenergo improve the security of supply?

The innovations and infrastructureof Latvenergo will not only strengthen the security of supply but also the development of the Baltic region." BESS,or Battery Energy Storage System,is a technology that allows electricity to be stored with the objective of feeding it back into the grid at times of peak demand.

Will Bess be able to deploy storage capacity across Baltic states?

&quot;Future projects will be carefully evaluatedto strategically deploy storage capacities across the Baltic states in order to maximise the benefits for the security of supply and customers,&quot; the company added,giving a broad hint that it will also be looking to place BESS assets in Estonia and Lithuania.
