
Low-pressure type folding containers for port terminals

Do Empty shipping containers clog roads and ports?

Empty shipping containers clog roads and ports. Staxxon's foldable containers -- which can be stacked in bundles -- are one solution to this.

What is a seafold 40" container?

A collapsed bundle of five SeaFold 40' containers accommodates the same slot as one conventional 40' High Cube container creating 80% more storage and operating cost efficiencies at terminals, railheads, and ports, along with reducing lifts and container movement on ships, truck, rail, and barges.

Which containers are foldable or collapsible?

As mentioned above, the foldable or collapsible containers that have been actually commercialized to date are SIO, Fallpac and HCl. Among them, only HCl is fully foldable whereas SIO is collapsible and Fallpac combines collapsible and foldable features.

What is compact containers?

Compact Containers serves the global shipping and intermodal industry with an efficient, low-cost means to transport containers by Road, Rail, or Sea. Discover the future of cargo logistics with Compact Containers. Our SeaFold 40" collapsible containers redefine efficiency & cost savings.

Types of Folding Shipping Containers and Their Role in Freight Transport A folding shipping container is an innovative logistics solution designed to be collapsed when not in use, ...

About Compact Container Systems COMPACT CONTAINER SYSTEMS, LLC ("CCS"): Founded in 2009 to develop innovative solutions to supply chain problems in the ...

This paper presents the design of a new 5-tier stacking foldable container with convenient folding and unfolding process and that can be produced economically compared to ...

A collapsed bundle of five SeaFold 40' containers accommodates the same slot as one conventional 40' High Cube container creating 80% more storage and operating cost ...

Foldable containers are suitable for various cargo types, from industrial goods to consumer products. Once unfolded, they function like traditional shipping containers, allowing ...

Our low-pressure container allows you to get the most volume out of your 30 ft or 40 ft pressurised container. With its cubic shape and lower working pressure of 1.5 bar, you can transport ...

What causes 'empty running'? Empty containers clog roads and ship terminals, causing port congestion and leaving little space to unload ships. This then forces many ships ...

While Staxxon's containers can be folded and unfolded using a forklift and two labourers, the company is working with Konecranes on a high-volume folding and nesting ...

A five-in-one foldable container design could boost efficiency and transform the carriages of empties, claims Florida-based Compact Container Systems (CCS).

COLLAPSECON is the next evolution of shipping containers - a fully automated collapsible container that will improve operational efficiencies, deliver economic savings and reduce ...
