
Luxembourg solar Panel Power Generation Project

How many solar power plant projects are in Luxembourg?

Following a call for projects launched in October 2022, 85 solar power plant projects by 75 Luxembourg companies qualified for public funding. These projects will receive a total investment aid of EUR 16.1 million. Some of the selected companies received support from Luxinnovation.

How will Luxembourg contribute to energy independence?

Luxembourg is already participating in cross-border renewable energy projects and is committed to expanding its role in collaborative projects such as those related to offshore wind energy in the North Sea and hydrogen corridors, to contribute to the EU's goal of energy independence.

Are Luxembourg companies ready to play a role in the energy transition?

"The result of this call for projects is a success for the Luxembourg economy and for the climate: the companies present on our territory have demonstrated that they are ready to play an active role in the local energy transition.

What projects does Luxembourg participate in?

Luxembourg participates in projects financed by the EU Innovation Fund, which supports innovative industrial initiatives. For example, projects related to energy storage, recycling and carbon capture and storage (CCUS) are being developed to reduce emissions in energy-intensive industries.
