## MAh portable power bank

What is a 5000 mAh power bank?

A 5,000 mAh power bank is suitable for users seeking a lightweight and portable charging solution. It can typically provide one full charge for most smartphones, making it ideal for daily use or short trips. However, for charging larger devices like tablets or for multiple charges, a power bank with a higher capacity would be more appropriate.

What is a portable power bank?

Small enough to fit in your backpack or laptop bag, this portable power bank is perfect for on-the-go charging when you don't have the convenience of an AC outlet nearby. With dual USB ports, you can charge two devices simultaneously including smartphones, tablets and other USB powered devices.

What are the best portable chargers & power banks in 2025?

November 18, 2025: With this update, our lineup of recommended portable chargers and power banks remains unchanged. The existing picks have been vetted for currency and availability. The Anker Laptop Power Bank has a capacity of 25,000mAh, but more importantly, it can deliver 100W of power from a single port.
