
Manila Outdoor Power Local BESS

How is Bess transforming the Philippine energy industry?

With the commercial operations of approximately 1,000 MW of BESS facilities across 32 locations in the Philippines, we are now ushering in a new era for the Philippine energy industry through significant improvements in grid reliability and the integration of more renewable power sources to the country's diverse energy mix.

What is Bess & how does it work in the Philippines?

For commercial and industrial companies in the Philippines, BESS provides an opportunity to take control of their energy usage. These systems consist of high-capacity lithium-ion batteries and sophisticated energy management software.

What is Aboitiz Power's Bess project?

Aboitiz Power commits P1.2B to a pioneering hybrid BESS project in the Philippines. This model, integrating battery storage into thermal plants, is a blueprint for climate-resilient energy and grid stability in Asia.

How many Bess facilities are there in the Philippines?

SMC Global Power is operating 32 BESS facilities across the Philippines, spread across the regions of Luzon, Visayas, and Mindanao.
