## Middle East Power Storage Vehicle

Will UAE deploy 300mw/300mwh of battery energy storage capacity?

The UAE should deploy 300MW/300MWh of battery energy storage system (BESS) capacity in the next three years, according to one of its main utilities EWECC. Sungrow has signed another battery storage supply deal with renewable energy and sustainable infrastructure developer Doral for projects in Israel.

Why is Middle East energy launching a 49th consecutive year in Dubai?

"The continued organization of Middle East Energy for a 49th consecutive year in Dubai reflects international confidence in the emirate as a strategic centre for conferences and exhibitions, and reinforces its role in leading the global dialogue on energy security and sustainability," stated Sheikh Ahmed.

How big is the battery market in the Middle East and Africa?

Market forecasts suggest that the Middle East and Africa battery market is projected to grow to \$9.98 billion by 2029, driven by policy support, increasing electrification, and a rise in renewable energy investments.

How much is KarmSolar's solar-plus-storage project in Egypt worth?

Solar energy company KarmSolar has secured US\$2.4 million in bank financing for a solar-plus-storage project in Egypt. Recent policy developments in the US and European Union represent a considerable uplift to prospects for global energy storage deployment.
