# New energy storage equipment for sale in Manchester UK

Who are Manchester renewables?

Here at Manchester Renewables we supply and fit all of Manchester with renewable energy products, from Solar PV Systems, EV Charging Points, Battery Storage and Heat Pumps. Our expert teams are all MCS & RECC accredited, providing you with the highest quality installations, using the best and most efficient systems on the market today.

Will a UK battery energy storage project come online next year?

One of UK's largest battery energy storage projects has changed hands and will come online next year as part of a low carbon energy park in Greater Manchester. UK-based developer Statera Energy has acquired a 680 MW/1360 MWh battery energy storage project in Greater Manchester from Carlton Power.

Who owns Carlton Power's "Carrington storage" project in Greater Manchester?

UK-based developer Statera Energy has acquired a 680 MW/1360 MWh battery energy storage project in Greater Manchester from Carlton Power. Located at Trafford Low Carbon Energy Park, Carrington Storage is expected to become one of the largest of its kind in Europe once fully energised in 2026.

What types of EV chargers do Manchester renewables provide?

At Manchester Renewables we provide all types of EV Chargers, supplying and fitting all models from domestic 7.2KW to commercial 3 phase 22KW chargers. The Battery Storage allows you to store the excess energy your system is producing. This means it isn't going back on the grid during the day and is ready to use when required.

Energy storage solutions in Greater Manchester with advanced battery storage systems to store electricity from solar and renewable power, ensuring reliable supply and efficiency.
