
Outdoor Uninterruptible Power Supply Supplier

What is an outdoor Uninterruptible Power Supply?

An outdoor Uninterruptible Power Supply is a power solution designed for critical applications where it's essential that equipment stays running in harsh outdoor environments and significant temperature variations, where an ordinary UPS would fail. Trust TSi Power for these applications.

What is an industrial uninterruptible power supply system?

Industrial uninterruptible power supply systems (UPS Systems) include core technologies to cover industrial equipment. Our systems offer applications ranging from a few hundred watts to massive Multi-Mega Watt Parallel UPS installs inclusive of voltage regulations, voltage correction, sag correction, surge suppression and harmonic mitigation.

Why is an uninterruptible power supply necessary?

An uninterruptible power supply (Uninterruptible Power Supply or UPS) has become a necessity rather than a choice in various sectors of life, including industrial facilities, hospitals, homes, and offices. The electrical network may experience situations such as high or low voltage, sudden voltage jumps, or frequency changes.

What products are included in a power supply system?

This includes hardened outdoor enclosures, uninterruptible power supply (UPS) modules, specialty batteries, accessories and generators that can be custom integrated to meet your application.
