
Pakistan power storage vehicle sales

What challenges does the electric vehicle market face in Pakistan?

The electric vehicle (EV) market in Pakistan faces a blend of challenges and opportunities as it transitions towards a more sustainable future. The transport sector, a significant consumer of carbon-intensive fuels (gasoline, diesel, CNG), contributes substantially to global GHG (greenhouse gas) emissions.

Does Pakistan have a strong EV market?

Despite the policies implemented by the government to encourage EV adoption as part of the National Electric Vehicle Policy and the AIDEP, the Pakistan EV sector still lags behind regional competitors. Dahan remains the only brand to report a significant, though limited, number of EV sales.

Which EV is the best seller in Pakistan?

Looking at specific models the Suzuki Alto was the best seller with a 22% year-on-year gain in volume, followed by the Toyota Corolla up 51%. Despite the policies implemented by the government to encourage EV adoption as part of the National Electric Vehicle Policy and the AIDEP, the Pakistan EV sector still lags behind regional competitors.
