
Palau rooftop solar panels

Why did PPUC buy a solar power plant in Palau?

In March 2024, PPUC acquired energy from Palau's first commercial Independent Power Producer (IPP), a solar company. This allowed them to replace two diesel generators with solar power. While a positive step towards renewable energy goals, the IPP system currently lacks battery storage, limiting its ability to maximise excess energy.

Are solar panels helping with the cost of electricity in Palau?

" Solar panels are really helping with the cost of electricity here. Palau Solar is a subsidiary of Utilelligence, created to design, supply and install domestic solar power throughout the archipelago of the islands of Palau. Through a project with the Asian Development Bank, Palau Solar is transforming the islands with renewable energy.

Who is Palau solar?

Palau Solar understands renewable energy. Our parent company, Utilelligence, works exclusively in the field of renewable energy connectivity, helping to power solar, wind and hydrogen power on projects worldwide.

What is the Palau solar battery project?

The Palau Solar Battery Project will be the largest such project in the Western Pacific. It will lessen Palau's imported fuel dependency, a major step towards its ambitious goal of 100%.

Solar photovoltaic technology is utilized in panels to generate electricity. Regardless of your 3kW solar panel size and type or the nature of your solar energy system, the power is generated ...

The Palau Solar Battery Project will be the largest such project in the Western Pacific. It will lessen Palau's imported fuel dependency, a major step towards its ambitious goal of 100%.
